Believing in potential

Each year over 800 children benefit from programs and services at Reach Child and Youth Development Society. Our family-centered, individualized, and responsive approach means that families experience success and each child is given the opportunity to reach their potential.

Family Centered Our family-centered philosophy recognizes that the family is the major decision maker and constant in the child's life and as such, we believe families should be in control and informed. We believe, that the primary aim of good service planning is to enable and empower families.

Individualized We recognize and respect the diversity and uniqueness of families and children and provide individualized approaches to goal identification and service planning.

Responsive We believe that it is essential that services be flexible to meet the changing needs of children and families, and to respond to input from the community regarding those needs.

Experts in our field We have brought together professionals with expertise and knowledge in a variety of areas including Early Childhood Educators, Speech Language Pathologists, Behavioural Consultants, Supported Child Development Consultants, Occupational Therapists, Infant Development Consultants, and others with extensive experience supporting families and children.

Our vision

Communities where all children, youth and families are welcomed, included, and leading lives of well-being based on their own individual strengths, interests, and values.

Our mission

To provide timely, accessible and supportive community programs and services for the optimal development of children and youth, where children, youth and families flourish and reach their potential.
